RELEVANT EXPERIENCE

Woo Happiness Engineer — Automattic, Inc., San Francisco, CA

JUNE 2019 - AUGUST 2022

- Assisted customers, trained new hires, wrote documentation, and raised issues with the development team for dozens of plugins on the WooCommerce e-commerce platform.
- Diagnosed and fixed CSS issues on user sites.
- Wrote JavaScript and Unix shell scripts for tools like Tampermonkey and Alfred to enhance productivity of the support team.

Support Engineer, Web Developer — Prospress, Inc., Portland, OR

SEPTEMBER 2017 - JUNE 2019

- Worked as a member of the support team to answer emails, write documentation, train new hires, and raise bugs and issues with the development team.
- Developed middleware with Lumen/Laravel and the Mailgun and Help Scout APIs to enhance data sent to the support email system.

Web Developer, UI Designer — Doxpop, LLC, Richmond, IN

JANUARY 2014 - SEPTEMBER 2017

- Worked as a full stack developer on a fully-featured Java EE web application serving thousands of users in Indiana and Michigan.
- Designed and implemented multiple high-traffic, interactive pages from the ground up by gathering requirements, creating mockups, and finally creating the fully functional pages, all while working with other developers, business partners, and customer focus groups.
- Managed an overhaul of parts of the site to fit Material Design UI standards.
- Worked with the support and testing teams to diagnose and fix critical, time-sensitive bugs.
- Wrote technical documentation on features and changes implemented.

Instructor — Greenhouse Coding Academy, Richmond, IN

FEBRUARY 2017 - APRIL 2018

- Mentored middle and high school students in the basics of programming using Scratch.
- Designed the curriculum used by all instructors.
